Dear Partners,

The California Association for Infant Mental Health (CalAIMH) advocates for the needs of all children, ages pre-natal to five, in California. Our approach is transdisciplinary; we welcome everyone from any field or profession who wishes to be informed about infant mental health.

Our Vision: All children and families in California shall experience relational health, resilience, and overall well-being.

Our Purpose: To bring together as common voice organizations and individuals who promote caregiver-child relational approaches to prevent and heal adversity in young children, prenatally to age five.

Our Mission: CalAIMH's mission is to bridge and connect a transdisciplinary, relationally-informed community across California that collaborates and advocates for children and families prenatally to age five.

We seek partners to sponsor our two-day conference on October 27, and October 28, 2023, in Ontario, CA. The conference theme is Sharing Joy: Where Passion & Meaningful Relationships Take Flight.

Please help support us in building on our primary function in promoting professional development, including:

- Promoting relationally-informed practices
- Promoting California endorsement in infant and early childhood mental health (to include reflective practice)
- Integrating Neuro-biological science
- Transdisciplinary collaboration, infusion, and integration of infant mental health core principles.

Sponsoring the conference offers opportunities for your organization to shine in support of our most valuable population of ages pre-natal to five and families.

**Sponsorship and Exhibitor Opportunities
CalAIMH Conference 2023**
